Iling Off in the Rate of Growth for Country

NCREASE IS 14.9 PER CENT

Population Of Alaska And The otal Classes Under The Military And Naval Service Abroad Are Yet To Be Announced.

Washington.-The total population ontinental United States is 105 .-08. an increase of 13,710,842 or per cent. This figure does not ude approximately 12.250,000 people living in the country's outlying posons. The population of Alaska and the total classes under the mili-Director Rogers, of the Census Bu-

reau in making the announcement of the country's population, said that while the figures were prelimininary ss in December, for apportionment poses, was not likely to be greatly different although it might be slightly ger through the addition of popu on for small sections of territor imed not to have been properly can sed by the census enumerators in vestigated.

as announced today," said Mr. Rogers, "is 105.683.108, as conpared with a total in 1910 of 91.972.266, and in 1900 75.994.575. This is an increase since 910 of 13,710,842, or 14.9 per cent as "The large falling off in the rate of has determined that he will not pay a bushel was slashed from values, the added. to an epidemic of influenza and to the ers.

tion possibly, but the substantial accuracy of the enumeration in January is the crops." fully borne out by comparison with the decade and the excess of immigraable date it may be roughly estimated that the annual excess of births over deaths throughout the United States is approximately 1 per cent. This rate mpounded would indicate an increase of approximately 10.5 per cent during the decade. Thus, the nearly 92,000,000 persons present in the United States in 1910 might be expected to increase

"In addition, the excess of immigration over emigration during the decade was approximately 3,733,000. Since the bulk of these foreign-born only 3.1 per cent, and if the comparison is extended ory it appears that that portion living in incorporated places of less than 2,500 living in rural territory of 1.518.016, or persons came to the country during the first four years of the decade it may be roughly estimated that the increase due to excess of births country may be assumed to have been augmented by about 4.100,000 during the decade through excess of immigration over emigration. The two cate, therefore, a probable population of 105,800,000, or only a small fraction of 1 per cent more than the total shown by the returns of the fourteenth | Reserve banks must be in position to
